

How to install eSIM

1

Make sure your device supports eSIM.

Check that your device is connected to the internet via Wi-Fi or another SIM card.

Launch the QR code scanner in the built-in camera or through the eSIM settings section in the smartphone:

2

- on iPhone: "Settings" - "Cellular" - "Add Data Plan"

- on Android: "Settings" - "Network and Internet" - "Mobile communications" - "Add" - "Download SIM-card"

3

Scan the
QR

Or manually enter the following data:

SM-DP+ Address: rsp.truphone.com

Activation code: KC-1TYDP8-1QQFXD1

4

Complete the setup following the instructions on the device screen.
